

Cert. nº 001.2023

WATER POTABILITY CERTIFICATE

On behalf of the Port Health Authority I hereby declare that the Port of Leixões Drinking Water System is owned and operated by the Port Administration Board (APDL), which supplies fresh water to ships and institutional use and, designed to preserve water quality, implements a quality control plan.

I also declare that the results of December 2022 fresh water survey, meet the health code requirements for human consumption and WHO, Guidelines for Drinking Water Quality, and are in accordance with WHO, International Health Regulations.
